

1 **METHOD AND APPARATUS FOR DISPLAYING TELEVISION
PROGRAMS AND RELATED TEXT**

Abstract of the Disclosure

5 A television viewer uses a PIP format for display of
program related information such as television program
listings from a program schedule data base in the
background and moving, real time or stored video clip
10 images of a program selected from the displayed listings
in the PIP window. All the text of the background
information lies outside the PIP window. In one
embodiment, as the viewer selects a particular program
from the display of current television program listings by
means of a cursor or a code number, the corresponding
15 program automatically appears in the PIP window.
